

Author's Response To Reviewer Comments

Close

1. main thing is to cite the data DOI in the data section of the paper - Added citation to GigaDB.
2. In addition, please include the RRID of the tool in your manuscript. This will facilitate tracking, reproducibility and re-use of your tool. - Added RRID in the Availability of source code and requirements section
3. Can you add ORCID details for any authors that have them? - ORCID was added for all authors. We tried to add it as an icon but we got exceptions that are related to the \author command.
4. Delete these three words - deleted.
5. We want URLs cited in the references - All URLs in the footnotes were converted into citations.
